

## Comprehensive Family Planning

**Family PACT is a publicly-funded family planning program designed to provide “comprehensive family planning services” to low-income men and women in California with no other source of family planning and reproductive health care insurance coverage.**

**Access to  
Family PACT  
fills a gap in  
health care for  
uninsured and  
underinsured  
clients of child  
bearing age**

### **Family PACT reimburses providers for these client services:**

- Contraceptive methods
- Emergency contraception
- STI testing and treatment
- Pregnancy testing and counseling
- Sterilization
- HIV testing
- Hepatitis B immunization
- Limited female and male cancer screening
- Education and counseling

### **Education and Counseling**

Health educators or clinical staff with appropriate skills can provide reimbursable family planning and reproductive health education and counseling.

### **Provider Enrollment**

To provide Family PACT, you must be a current Medi-Cal provider in good standing, attend an Orientation Session and submit completed Application and Enrollment Agreement forms.
